

Craftsman Bookcase (\$1,435.00)

Hardwood Artisans makes two styles of Arts and Crafts bookcases. This style we call our New American Craftsman bookcases. (The other type we call our Crofter's style.) The sides of these bookcases are frame and panel and the unit has a back. These are lovely sturdy homes for your book collection. A properly sized pair of these on either side of a doorway or a fireplace can look fantastic.

The tops overhang the sides, so these bookcases don't sit well side by side. But if you need a longer run of bookcases on your wall and like this craftsman style, we can build you sections that "gang" together to get you any length you want. Bring us your room dimensions and maybe a photo of your room and our sales staff will be glad to help you get just the right sized arrangement.

- Two inch overhang on each side.
- Optional finished back.
- Custom sizes are available; contact us for more details.
