

Crofters Collection (\$810.00)

A Crofters Coffee Table from Hardwood Artisans is about as close to perfect as you can get. Nothing fancy, mind you, just precisely what it should be. The sturdy, time-honored, mortise and tenon construction will endure for a lifetime. The boards for the one inch thick top are carefully selected and matched to make each table distinct and unique.

As beautiful as these tables are, they are for real world use; go ahead and put your feet up on the top if that's how you get comfortable. We have made hundreds of these and in the process, made a lot of satisfied customers. The Crofters End Tables are equally honest, straight-forward, and beautiful.

- With or without the drawer.
- Dimension modifications made for a slight charge.
