
Waterfall Round End Table (\$850.00)

As with all of our Waterfall occasional tables, the curved legs are tenoned through the table top. This tenon is then wedged with ebony, resulting in an interesting and attractive detail. Although the styling is distinct, this coffee table will work with a wide variety of room designs and styles.

These nicely proportioned tables are perfect in any living room space. If you really want your room to sing, we make several sofas, loveseats and chairs that work especially well with these tables, such as our Mackintosh, Crofters, or Bungalow pieces.
