## Tansu Bed (\$3,100.00)

The Tansu bed sports impressive 3 5/8" x 4" legs. The legs are then tenoned through the top rails, which are cut on a curve. All of the competing curves working in tandem create this uniquely Hardwood Artisans style. The floating headboard is standard as Curly Maple, but can be modified to the same wood.

The Tansu bed works well with a variety of styles of chests and dressers, but we suggest the Waterfall or Craftsman collection. Due to the bed's impressive scale, we do not offer it in a twin size.
