

## Lamp Stand (\$860.00)

Hardwood Artisans makes several configurations of what we call “Waterfall” tables. These all feature the gracefully curved legs, through-tenons that attach the legs to the tops, severely undercut top edge, and two lower shelves. These graceful tables are some of our most popular items.

Our Lamp Stand measures 32” tall, and with an 18” square top surface, this table elevates a lamp to where it actually illuminates your book. Think of this as a tall end table or a small hall table, but think of it in your home.
