

## 70" Craftsman Corner Desk (\$5,985.00)

The Craftsman Desk features 70" long runs on the left and right. We found this size to work well in many home office applications, and with finished backs on both files and a modesty panel, this desk is perfect to move out of the corner and float into the room. Features include two letter file drawers, four miscellaneous drawers, wooden pegs, a rear bookcase that supports the back corner, keyboard tray, and grommets for wire management.
