
Drop Leaf Café Table (\$1,710.00)

This lovely drop leaf café table is ideal if space is an issue in your home. When it's table space you need, the smooth wood of the solid hardwood top opens to 32" and can accommodate as many as four when you're entertaining. When it's space to move around that's in demand, the leaf folds down; the piece can then be tucked against a wall or in a cozy corner, and it still offers ample space for a romantic dinner for two. Three gracefully arched legs form a pedestal to allow maximum leg room.
