

Linnaea Chair (\$725.00)

The dining room counterpart to our new Linnaea Collection, these chairs combine mid-century roots with the simply beautiful lines our customers have come to expect from Hardwood Artisans. This chair was designed to go with our Linnaea dining table, but also works well as a stand-alone piece or as a stylish desk chair. The light back offers a surprising amount of support and the arms are effective without getting in the way.
