

Artisan Sleigh Bed (\$2,771.00)

Our Artisan Sleigh Bed is a contemporary update on a classic bed. The open headboard slats and the low footboard make this piece visually lighter and more elegant than a traditional sleigh bed. The design sits nicely somewhere between Craftsman and Asian styles and matches beautifully with many different styles of décor. This bed is built to order and can be customized to fit your needs. You can have this bed built in one wood or in a contrasting wood such as curly maple in the bed's headboard slats with walnut on the base.

We offer this bed with a straight legged footboard and a curved leg footboard.

- Recommended mattress thickness of 11" to 13"
