

Waterfall Cabinet (\$1,960.00)

Perfect for dining, office or living spaces, these cabinets will be with you for years to come, but may not always serve the same purposes. As dining room pieces, they are tall enough to serve from and functions as a sideboard. In the office, they keep seldom-used equipment near at hand, but hidden from view. In the living room, add a power strip and vent holes for a high functional entertainment unit.
