

Side Panel Wall Bed (\$3,869.00)

Similar to our panel bed in function, we have turned the bed function sideways, so the bed rolls out onto its side. This is for rooms with windows, low ceilings, limited protrusion into the room, or just to achieve a look that is different. Lighting is not an option. Price includes a solid 1" thick top, 3" deep side rail, and a Serta Perfect Sleeper mattress.

The Panel Bed is the heaviest of our wall beds to raise and lower. If the person using this bed is elderly or small, you probably want to verify that they will be able to comfortably operate the bed. As with all of our wall beds, this cabinet comes with built-in reading lights. This cabinet does not require a floor mounting, but it does attach to the wall.

- Made to order and customizable
- Coordinating [wall units](#) available
- Base Price includes Cabinet. Total Price includes mattress, mechanism. Other optional finishes available
