

Cabinet Wall Units (\$1,380.00)

We make wall units that are free standing cases, typically 18" deep. We show many of these next to our Wall Beds, but these units are attractive enough to be free standing cases, or place several together to create an entire wall system. We have presented 16 versions that are our most popular. However, the possible combinations of doors, drawers, desk, files, or display areas is almost limitless. Don't see what you need for your home? Call us and we can create a wall system that is truly your design.
