
Shaker Collection (\$605.00)

At Hardwood Artisans, we make a line of coffee and end tables that we call our Shaker Tables. These are not actually reproductions of any particular pieces of known Shaker furniture; rather, we feel that they are extensions of and in keeping with the honest, simple, and elegant style and approach to furniture design and manufacture for which the Shakers are deservedly known.

In their simplest form, our Shaker Tables have a plain solid wood top (nicely matched for grain and color, of course) and classic Shaker-style tapered legs.

These tables are available with other details/options. Call for more information.
