

Custom Bathroom Designs (\$1.00)

It is very hard to find a custom vanity to fit your unique space, so much so that it sometimes is easier to have a contractor move a wall to fit the case than finding a custom made cabinet that suits all your needs. We have built many vanities in all styles imaginable, from a very traditional base cabinet to a wall-hung ultra-modern case with a vessel bowl on top.

Whatever your needs in size, style, finish, and function, speak to one of our kitchen and bath designers for that special piece.
