
Furniture Care Kit (\$26.00)

We have assembled a kit of the “must have” items for you to take care of your Hardwood Artisans product. These kits are designed for our oil finished products only. Lacquer finishes require a completely different system of care.

Included in the tool box shaped kit is a 4 ounce bottle of Kerfs oil, the recommended supplemental oil to caring for your pieces. Also, we have included lint free disposable oiling rags to buff the oil on and off the piece. For minor repairs, we have included fine steel wool and a nylon pad. Finally, there is a brochure on how to handle the care of your fine furniture. In addition to the care kit brochure, there are videos on YouTube demonstrating general maintenance, as well as dent and scratch removal.

The care kits are available for purchase in any of our stores. By request, we will ship them as needed, but you will need to call a salesperson for assistance.
